MINERAL SUPPLEMENT

APPLICATION

To be used when the mineral content of the feed fails to meet the horse's requirements.

- High bioavailability
- Palatable and easy to dose
- Contains macro- and microminerals

Eclipse Biofarmab BioMineral Total offers a carefully balanced blend of macrominerals, including calcium, phosphorus, magnesium, and silicon, along with the highly bioavailable trace elements iron, copper, iodine, zinc, manganese, and selenium. This composition ensures the daily intake of essential minerals for optimal health.

Minerals are a group of elements essential for the body's biochemical processes and the functioning of various organs. They play key roles in the formation of the skeletal structure, the structure and functionality of muscles, joint function, and numerous other physiological processes.

Typically, minerals are categorised into two main groups: macrominerals and microminerals, also known as trace elements. The macromineral group encompasses calcium, phosphorus, magnesium, sodium, potassium, and silicon. The micromineral group comprises iron, iodine, copper, manganese, zinc, and selenium.

One scoop (20 g) provides 4 g of calcium, 1.25 g of phosphorus, 0.5 g of magnesium, 1 g of silicon, 10 mg of iron, 0.6 mg of iodine, 40 mg of copper, 75 mg of manganese, 100 mg of zinc, 0.5 mg of selenium.

Ca/P ratio: 3.2
