

# ALOE VERA + PROPOLIS GEL

CARE & GROOMING

Skin & Coat

Pharmacy

Effective for  
wound care, swelling  
and skin irritations

## MOISTURIZING GEL

### APPLICATION

To be used for wound care, reducing swelling, and alleviating skin irritations. Highly effective for massage purposes.

- Soothing and softening qualities
- Natural protection with propolis
- For optimal wound healing

Eclipse Biofarmab Aloe Vera + Propolis Gel is a softening gel used for wound care, swelling and skin irritations. Enriched with propolis for its anti-inflammatory properties and aloe vera to accelerate healing, it provides a soothing and moisturising effect.

### What is propolis?

Propolis, often referred to as "bee glue", is a natural substance utilised by honey bees to seal crevices and gaps in their hives. Beyond its sealing function, propolis acts as a disinfectant, safeguarding the bee colony against disease outbreaks. Honey bees collect resin from coniferous trees and exudates from specific deciduous trees, blending them with saliva and beeswax to create a sticky, resin-like substance. Commonly sourced from trees like poplar, birch, pine, and spruce, the resin itself often possesses inherent antimicrobial properties, enhancing the innate protective qualities of propolis.

### Contains ACTIValoe®

ACTIValoe® is the world's most rigorously tested Aloe Vera product, uniquely ensuring a minimum of 10% polysaccharides. Aloe Vera provides ideal conditions for supporting wound healing, owing to its abundant lignin content. Lignin has remarkable skin-penetrating properties that play a crucial role in the healing process.

### INSTRUCTIONS FOR USE

Wash the affected area and apply a thin layer of the gel. For larger wounds, wash with Eclipse Biofarmab Aloe Vera spray before applying the gel. This process can be repeated several times a day until the wound is healed.

For external use only.

If you have any doubts about wound treatment, consult a veterinarian.

### COMPOSITION

Water, Glycerol, Thickener, Preservative, Triethanolamine, Aloe Vera (ACTIValoe is a licensed trademark owned by Aloecorp Inc.), Glycerol, Propolis.

### SHELF LIFE

36 months.
